To complete your registration process, read the following instructions, and then continue onto the Trading Partner Profile data entry screens. In order to complete a minimum registration, a response is required for all mandatory fields (flagged with a green box). Complete the registration process by clicking "Validate/Save Data" through each page presented, and providing as much data as is available.
Each time you press "Validate/Save Data" your registration page will be validated, and a list of outstanding errors or omissions for that page will be presented. If you end this session without completing all required fields, you can return at any time and finish your registration by going to "Update" in CCR (the registration will not process until all errors have been corrected, and all mandatory fields have been entered in).
Upon successful registration of your Trading Partner Profile (TPP) into CCR, validation will take approximately 24 hours to complete. If approved, you will receive via e-mail or US Postal Service, one letter containing your Trading Partner Profile (TPP) with your CAGE Code, and another containing your Trading Partner Identification Number (TPIN). At that time your temporary Confirmation Number is no longer valid. Perform future updates/changes by selecting Update, then TPIN Update.
The maintenance and accuracy of your TPP is your responsibility. To maintain an Active status in CCR and to ensure continued payments on existing contracts, you must renew your registration annually.
